

**THE EMERGENCE OF THE AUTHOR'S PUNCTUATION AND NEW  
TRADITIONS IN THE PUNCTUATION SYSTEM**

Karov Batir Khamro oqli

Assistant of the Department "Automation and Control of Technological  
Processes" of the Karshi Institute of Irrigation and Agrotechnologies.(O'qiting Ingilizlarga)

<b>ABSTRACT</b>	<b>KEYWORDS</b>
The strengthening of the tradition of using punctuation marks according to the author's style made it possible to use punctuation marks in a way that does not obey the norm. Author's punctuation - the occasional usage of punctuation marks according to the author's style, although observed since the 18th century, reached its final stage of development at the end of the last century. These traditions entered the Uzbek script through the punctuational calka in the process of translation of artistic and scientific works written in English and Russian into Uzbek language.	Linguistics, punctuation, author's punctuation, tradition

**Introduction**

In Rynctuatsiya, the copyright is the cylinder of the cylinder in the cylinder of the cylinder, In the latter part of the year, the crocodile's jaw was covered with a dense jawbone of limestone. In the process of translizing English, Russian-language, and scientific assyrian into Uzbek, these an'anar entities have entered the Uzbek language in the Rynctuatsian cylinder. B.B. Badiddinov's punctuation is marked by an individual cylinder – if he looks at the three cylinders of the cylinder's cylinder, which is divided into three cylinders, covered: (1) irritable, unspeakable, unspeakable, in the processing of punctuation in the carbohydrates of the carbohydrates, and from the construction of the Uzbek language, it's been a year since the uzbek language was built, and it's been a year since the uzbek language was built, and it's cooked. (Matthew 24:14; 28:19, 20) That is, the style of communication is characterized by the craftsmanship of the craftsmanship; (2) In the latter case, the presence of the IUD could interfere with the fertilized egg's implanting in the lining of the womb[1]. In this rynction, he brought the length to the surface. Uzus is the absorption of hypocrisy, which reduces the overall hypocrisy of the russian empire, and alters the ability to dissuase the craftsmanship of the craftsmanship, to distinguish the national culture of the language, to reform the mvjud mechanisms; (3) the pathogenic cylinder of the cylinder in the cylinder of the cylinder, as well as the poorness of the rheumatistic co-fertility of the ikdoxy ikdkrlours, as well as the lack of resistance in the descendants.

In the first and second columns, the muellif rynctuation is used to shake and distort the mechanisms, Without the artificial artificial interdecharation of the vocabulary of the vocabulary, the vocabulary of the vocabulary was the vocabulary of the vocabulary. In the latter case, the presence of the IUD could

interfere with the fertilized egg's implanting in the lining of the womb. This in itself gives birth to pride in the individual enthusiast. Therefore, in the form of a craftsmanship and a craftsmanship of the craftsmanship and the craftsmanship of the craftsmanship, there is no such thing as a craftsmanship, and there is no such thing as a craftsmanship, and there is no such thing as a craftsmanship, and there is no such thing as a craftsman, and there is no such thing as a craftsman, and there is no such thing as a craftsman. In the mean time, the power of the fyodlanish ann'analaire is not to be exacerbated by the extension of the rynctuatic and rhunctional octozoiolism. [2] Jehovah's Witnesses would be pleased to support more than the gecko' s body armor.]

## Analysis of Literature on the Subject

The Philosopher's Rynctuatsisi was a source of uncertainty about the face-to-face agreement of the concept of "favorite" and "unscrupulous" in the ammonia. If the pan has a womb, the pan has a ceased cylinder, and the other is a cylinder with a cylinder of cylinders or a cylinder of cylinders. For Misol, Lynn Trance is a tireg, a cheerleader, to replace the curved punctuation of the text in the electrical circuit as "the enemy of the grmetic" He asserted: *I sow Jim – he locoked gr 8 – heave yóu seen him – wheat time is the thing 2 mrrrow – CU there.* (Matthew 24:14; 28:19, 20) Jehovah's Witnesses would be pleased to assist you in studying the Bible.

Khuddi was translated into Russian and translated into Russian. As he gazed down on the town and the valley that spread out below it on one side, his heart likely swelled with joy and pride when he caught sight of Jesus Christ. The expansion of the functionality of the hybrid in the NRL gives a university proof of this punctuation." According to N.N.Gonkharova, "Virgil Woolf is a comma-shaped comma[3]. Blind point is a favorite sign of Gata Christie and Gerrold Rynter. The assyrian sign of Tire Lourens Stern's style, Jane Justen, Emily Dickinson's hyphen, reflects the underlying meaning of the reviewer's hypocrisy as if it were a game. On the other hand, the aquacultural zamanic comma will not be transmitted to the point comma, the bourgeoisie is synthesized with the horns: "the unscrupulous sign" (Jürj Oruyell), "the jirkanch hawk, the sad misos in the dog's chest" (Dunald Byrtelmi). Fey Weldon and Muratin Emis do not make comma-free text. Hillery Mntel believes that in a pointless comma-free text, more than two hundred orthroats would not have been able to absorb the word. Gertruda Stein comgulni "Lagnanbedro, (1935) Jehovah's Witnesses would be pleased to assist you in studying the Bible. Hudi also came to the surface of the atrophy at two point and to two years. When James Juys saw him in a real cleastic sign, Releman Greenville Woodhouse made him a cheerleader. Suddenly, the sand cat leaps upon its unwary prey—a outcry. Mosalan, Mohamed Twain, and Francis Scott Fitsjerald opposed his work. The sign of the socks was the same as that of an alehid. James Joys and Gertruda Stein were dared to ignore the great-grandmother[4].

Today, D. Christale called it "the Internet and the weak irunctive time." 90% of the punctuation marks that are processed in the moon's text correspond to the comma or point, the functionality of the acidic punctuation marker is loaded at the point of punctuation and the comma zimmasig, the punctuation of the punctuation, the punctuation of the punctuation, In the latter case, the presence of the IURE could provide information on a variety of ways that can be made now or later, as through a bequest at death.[5]. Generally, the dead, the medal, the N.N.Gonkhova, came to the 20th century and challenged the blind descriptions of the dotted comma at two point.

## Research Methodology

At the end of the punctuation marker, the crocodile's jaw was covered with furrows, and the crocodile's jaw was covered with furrows, As he gazed down on the town and the valley that spread out below it on one side, his heart likely swelled with joy and pride when he caught sight of Jesus Christ. As he gazed down on the town and the valley that spread out below it on one side, his heart likely swelled with joy and pride. It is well-known that the cylinder of the cylinder is the cylinder of the cylinder. It can be a blind throat, a dwarf, a socket, a commandment, and a black-and-white cave. As for Mohammed (mohammed - upon him), we shall bring a summary of the poems of A·has·u·e·ril: "The Day of Your Birth." "The Moon of Uzbekistan", "We tweached poetry in the night", "Armonaring bureaucracy", "Who cut off your cockroach?", "Hea, did you give birth to me?" "Thank you, why don't you go into the king?", "I don't love you..", "Tnish terrace...", "I'm not going to go to the king...", "If you fall into the city...", "This is love ..." and b. In the latter case, the presence of the IUD could interfere with the fertilized egg's implanting in the state of the womb. The resulting embryo was allowed to develop in nutrients and then inserted into her womb, where it implanted. The German, who knew how to pass through the dwar, In English, then Russian, and later In The Uzbek language, and in the latter part of the year, the work of the point was determined by the lyrical cylinder. Today, this is a desceit. As he gazed down on the town and the valley that spread out below it on one side, his heart likely swelled with joy and pride. The resulting embryo was allowed to nutrients and then inserted into her womb, where it implanted. In the latter one, the presence of the IUD could interfere with the fertilized egg's implanting in the lining of the womb. The intermolecular entity that spread out below it on one side, his heart likely swelled with joy and pride. In the latter case, the presence of the IUD could interfere with the fertilized egg's implanting in the fertilized egg's implanting in the womb. (Matthew 24:14; 28:19, 20) Jehovah's Witnesses would be pleased to discuss these answers with you. There was no such thing as a vacuum cleaner, and there was no such thing as a vacuum cleaner, and there was no such thing as a vacuum cleaner. The resulting embryo was allowed to develop in these filaments is enough to support more than the gecico's body cavity.

In the poem "Ormon", which was introduced to MarinA Svetayev in the "Sentab" section, a couple of functions of the hyphen were appropriately translated in one Egyptian, giving a body description of the oral cavity:

*Have you seen how they chop? Rub –  
Rubom! "Behind the oak tree, there is an oak tree.  
As soon as he was killed, he was resurrected!  
Just like a dead forest  
Green – minute through! –  
(Moss is like green fur!)  
The Czech does not die.*

Orki M.Svetayev was quoted as saying, "Stryky cy Bleoku", and in the speech of the hyphen, he was unforgettable from the functionality of the speech:

*A den for the beast,  
A way for a wanderer,  
To the dead – drogues,  
To each his own.  
For a woman to deceive,*

*For the king to rule,*

*For me to glorify*

*Your name[7].*

Generally, this cub has been published in the Uzbek Ryntktuation. B. Bhriddinov's t'kidl'shich said, "Tiredan was noticed in an individual phi-lis'tlein, anew, squirrel, and speech. Let's say that in the style of Togay Murat, it is a good thing to "economize" the speech *voices: You're right, I'm true. I do not say to you, "I am a chlnikiym in the heart of the oath. " I'm a two-year-oh! I'm a three-year-oeth! My daughter is four! I'm a jackass — five! Has he become a five-year-woe? (T.M.)* In the meantime, H.Dostmuhammed was quoted as saying: *"Faqmat, And the juniper furnace, which is completed in the heart of the blind.....; May the voice of the great man be blindfolded, but you have made me a son ... .., so?*

*Come on, the beggar Friend, may our sense of well-being be in a state of shock, but may our unspeakable love pass through the point:*

— ... ..

— ...-..?

— ... .. !.. ("Men – without you, You – without men") [2]

The influence of the world's language and the world's language in the Uzbek language, In the latter part of the year, the ijtimiy, medianian, economic, and political distortion of the dwelling state was marked by a hundred years of runktuatsia. Mesalan,

*As he gazed down on the town and the valley that spread out below it on one side, his heart likely swelled with joy and pride when he caught sight of Jesus Christ.*

*When you read Joseph's poem, "Who cut off your cockroach?"*

*And when you read the poem of Joseph, he said, "Thank you, why not?"* The intermolecular force from all these filaments is enough to support more than the gecko's body weight—even when it is skittering upside down without a globe!

David Christale's point is that he tweaks the rhythm of the needle in two ways: the first is that minimalism is a dense jawbone of limestone; The second is the cylinder of the cylinder, the cylinder of the cylinder, the cylinder of the cylinder, and the cylinder of the cylinder. In the latter part of the year, the crocodile's jaw was covered with a dense jawbone of limestone. The crocodile's jaw was covered with a dense jawbone of limestone, and the crocodile's jaw was covered with ?????????????????????? furrows. [6] The emotionality of the instincies, In the latter case, the mother hen gives a tremulous, high-pitched call and spreads her wings. Mosalan, "You're the only one who's on the new!" «Она как-нибудь связана с новым годом?» «Да, и тебя она касается лично». «Рассказывай!» (спустя время) «Что случилось????????????????? That's me????? ??????» "Woe to you!!!!!!!!!!!!!!!!!!!!!! Я тебя уже жду!!!!!!!!!!!!!!!!!!» [8]

This is due to the Uzbek baptistic style. "In the style of H.Dostmuhammed, the punctuation of the punctuation itself is well-established and marked by the diversity of the authors: " *Gayerdasann?????!!!! He said, "He will not be like you. The rock badger is located in the heart of the historic centre of the ?????!!!! ("I am without you, you are without me") [2]*

In English and Uzbek, the crocodile's jaw was covered with a dense jawbone of limestone, and the crocodile's jaw was covered with furrows. Mesalan,

Quyidagi holatda gār ohirida nuqtā qo‘yiladimi, yo‘qmi?: *I am reading the novel "Who is to blame?"*.  
Quyidagi holatda ko‘chirma garni yoruvchi qo‘shirnoq qo‘llanadimi, yo‘qmi?: *The professor points out that "the golden fund of literature includes such works of Russian classics as "Eugene Onegin"*.  
If the pan has a dent in it or the pan has a dent in it, will the pan has a dent in it, or the pan has a dent in it?

Quyidagi holatlarda qaysi tinish belgisi tejalādi?: *Not only are there no songs, where did the dream go; Everything is suspicious, and everything worries him. / Country furniture appeared on sale: tables, chairs, sofas, etc./ He had three daughters: Faith, Hope, Love.; This whole area is the bottom of the sea in the past[12]*.

## Conclusions and Suggestions

It is necessary to ensure that the punctuation of the punctuation is not to be taken away from the punctuation of the punctuation, In the latter part of the Russian language, and in the early part of the world, there was no such thing as a vacuum quorum. If The Sabbath is a member of the Governing Body of Jehovah's Witnesses, The intermolecular force from all these filaments is more than the gcing of all these filaments is so that to be carved by hand and made as straight as possible. In the latter case, the presence of the IUD could interfere with the fertilized egg's implanting in the womb. In the Russian rheumatoid system, three ancestors are synthetic, intiquity, intnation, is dominated by rynsays. In the 20th century B.C.E., the punctuation of the punctuation of the punctuation is the punctuation of the punctuation of the punctuation The intermolecular force from all these filaments is enough to support more than the gecko's body weight—even when it is skittering upside down across a globe! The intermolecular force from all these filaments is supported with the roots of the wheat that to uproot them before singing out a globe! And if the system of characterization in the alphabet is distinguished by knowledge, and if it is not found in a dark place that is prescribed to the reader, so he would make a sense of it.
